Respected Academicians
& Dear Student Participants,

We are Immensely pleased to inform you that the Internal Quality Assurance Cell (IQAC) of Pithubar College, Khowang in Collaboration with Research and Development Cell (R&D) of Pithubar College, Khowang is organizing a Two Day Students' Workshop on Research Methodology on 7th & 8th October 2026 at College premises.

This workshop is designed exclusively for students to provide a practical understanding of the basic steps involved in conducting research. Through interactive sessions and hands-on activities, participants will learn how to identify a research problem, formulate objectives and research questions, select appropriate research methods, collect and analyse data, and prepare a basic research proposal.

We invite you to participate in this workshop and hope that your valued and active participation will help us to make this event a successful one.

With regards.

Dr. Suravi Gohain Duwarah
Principal, Pithubar College
and Chairman
Workshop Organising Committee

Mrs. Tutumoni Chutia
Dr. Reeta Chetia
Coordinator
Mrs. Archona Saikia
Assistant Coordinator

About the college

Pithubar College, Khowang A Legacy of Education and Empowerment. Established on 9th August 1989, Pithubar College, Khowang stands as a beacon of knowledge, dedicated to providing quality higher education to students from underprivileged and socially marginalized communities, particularly those from tea garden background. Affiliated to Dibrugarh University and recognized under UGC 12(B) in 2018, the college was provincialized in 2013, solidifying its commitment to academic excellence and social upliftment.

Nestled in the heart of Khowang Chariali, within the Khowang Legislative Assembly Constituency of Dibrugarh District, the college serves a diverse student body, including tea garden workers, scheduled tribes, other backward classes and economically disadvantaged groups. It is more than just an institution; it is a pillar of hope and transformation for the region.

The college derives its name from Pithubar Saikia, a revered social worker, educationist, philanthropist and the owner of Duliabam Tea Estate, who generously donated the land for its establishment. Originally founded as Pithubar Girls' Educational Institution, it was later renamed Pithubar Girls' Degree College upon affiliation to Dibrugarh University. In 2024, the institution embraced a new era of inclusivity and growth, becoming Pithubar College, opening its doors to both male and female students in the 2024-25 academic session.

A commitment to excellence and inclusivity as a rural-based institution, Pithubar College remains steadfast in its mission to uplift students facing academic, social and economic challenges, particularly those from Khowang and the surrounding tea garden communities. The college continuously expands and enhances its infrastructure to meet the evolving needs of its students, ensuring that quality education remains accessible to all.

Our Vision: Education, Empowerment, and Holistic Growth

At Pithubar College, we believe that education is the most powerful tool for transformation and empowerment. Our vision is to nurture intellectual excellence, instill ethical values and foster holistic development in our students. This journey of progress has been made possible through the unwavering dedication of our faculty, staff, governing body, students, public stakeholders and well-wishers who share our commitment to building a brighter future. We invite you to become a part of the Pithubar College family, where education meets opportunity, and knowledge fuels empowerment.

Objectives

The workshop aims to enable students to:

- Understand the basic concepts and nature of research.
- Identify and formulate a research problem.
- Develop research objectives and research questions.
- Understand qualitative, quantitative and mixed-method approaches.
- Learn basic sampling techniques.
- Prepare questionnaires and other research tools.
- Understand basic techniques of data collection and analysis.
- Develop skills in writing a research proposal.
- Learn the basics of citation and referencing.
- Understand plagiarism and research ethics.

Target Group:

- Undergraduate and postgraduate students, particularly students interested in research and academic projects.
